

Livemore – Nexus Testimonial

Description

I have worked with Colin Harmond on numerous projects over the years, the latest project being our new 40,000sq/ft Head Office in Braintree Essex where he carried out the role of Project Manager.

I have always found Colin to be very diligent and knowledgeable with the ability to communicate at all levels. He lives and breathes any project he works on, managing the scheme from inception to completion utilising his deep and varied skillset to produce the best outcome for the Client, within budget and to a high quality.

I would not hesitate in recommending Colin in this role on similar projects.

Jeremy Brett, Nexus Pre-Construction & Planning Director
